

CERA

LOOK BOOK 2021

Sanitaryware

Combined Maximum Retail Pricelist No. 55.0 effective 15th November, 2021
Applicable for the States of Chandigarh, Chhattisgarh, Delhi, Gujarat, Haryana, Himachal Pradesh, Jammu & Kashmir,
Madhya Pradesh, Maharashtra, Punjab, Rajasthan, Uttar Pradesh and Uttarakhand

Awards, certifications & affiliations

CERA has been recognised by its consumers for its brand value and its product innovations for a number of years now. Consumers have endorsed CERA as their preferred brand. They have chosen CERA in various researches that state CERA as an innovative and trusted brand. The recent awards include Superbrand and Readers Digest Trusted Brand awards. CERA's Core Urinal was voted as an innovation in 2019 by architects at Design Wall competition organised by The Economic Times Acetech.

Technology

Technology lies at the heart of everything we create at CERA. CERA's state-of-the-art manufacturing plants are equipped with advanced machineries and equipment that are world-class and revolutionary.

Sanitaryware

The sanitaryware manufacturing unit boasts of its own technologically-advanced machineries ranging from 3D prototype printer to CFD technology and robotic glazing machine to pressure casting machine.

3D Printing machine ▶

- First Indian company to introduce 3D printer
- Quicker conversion of concept launches for new designs

▲ CFD Technology

- Helps in designing water-efficient products

▲ Robotic pressure casting

- For producing high-end sanitaryware in large quantities

▶ Robotic glazing

- Uniform and faster glazing ensures impeccable finish

We, at CERA, stand for a greener planet. Which is why, we offer ecological hygienic solutions. Simply put, we offer products that save water and in turn, protect the planet.

Green Products for a Greener Planet

With a wide range of water-saving products with futuristic eco-designs and advanced technology, we strive for a better future. We call this "an idea for a better society". Let's have a look on how we do this:

A range of water-efficient EWCs

In today's time, it is important to make EWCs that saves precious water. More than 90% of CERA EWCs are designed to save 35% water in each usage. This is possible due to special design of inner bowl that needs only 3.9 litres flushing water instead of regular 6 litres and yet offer effective cleaning.

Sensor urinals

Here's a smart way to a cleaner and healthier bathroom – the sensor urinals. Apart from the aesthetic design and stylish looks, these innovative products also offer 'sense presence technology', which initiates automatic flush mechanism. It flushes just 0.75 litres of water in every use, which includes pre and post use flushing.

Green Products with star rating

CERA is an organisation that primarily focuses on the conservation of water, one of the most important natural resources. With this objective, CERA has a wide range of water conserving products, built using smart eco-designs and technology. CERA calls this 'ecological sanitation – an idea for a better society.'

Sanitaryware Product Features

The bathroom is one of the most important rooms in your home. So, while the design of the fitting matters, how much water it uses and how well it flushes matter even more. A good EWC conserves water and generates enough power to clean the bowl in a single flush – leading to efficient use of resources.

Glazed Traps in EWCs

CERA EWCs are fully glazed across the product which includes inside of trap also where glaze can't reach. This ensures superior hygiene as glazed surface does not allow waste to accumulate. Fully glazed traps ensure effortless flushing & total waste removal.

This will further elevate hygiene factor in toilet.

Rimless EWCs

A rimless EWC uses a direct flush technique to shoot water around the edge of a smooth pan instead of the water flowing into the bowl through rim. Since there are no flushing rims, no dirt & germs can accumulate ensuring more hygienic solution than traditional EWCs. They are designed for better distribution of flushing water to ensure superior cleaning.

Rimless EWCs also have enhanced flushing techniques like Swirl (2D), 3D & 4D.

Normal vs Rimless wc

EWCs with Siphonic flushing with jets

Typically, Siphonic EWCs have a long and narrow 'S' shaped trap way - one end of which opens into the inlet of the bowl and the other end links up with the bowl underneath the drain pipe.

This type of trap way designed with jets to ensure powerful flushing & total waste removal.

EWCs with nano-glaze

The nano glaze is new generation anti-bacterial technology which seals microscopic pores of ceramic surface so that dirt & grime will not settle on it.

In other words Nano glaze offers water repellent, stain resistant & scratch resistant ceramic surface ensuring utmost hygiene.

EWCs with duroplast seat cover

Duroplast seat covers are fast replacing the conventional PP and wooden seat covers. They give a flowless look due to their ceramic like finish. They are also scratch resistant & durable.

With advancing technology, toilet seat cover now comes with specific add-on like click and remove technique. This allows easy removal of seat cover for thorough cleaning.

Sanitaryware Product Features

Thin-rim tabletop washbasins

CERA's thin rim washbasins are a sight to behold with their modern sleek lines and finesse of shape--without sacrificing any of their functionality or durability.

These basins have easy to clean 5 mm thin rim improving overall aesthetics. Also these basins have more water holding capacity with no splash & better user experience.

Warranty

CERA products are crafted with the highest standards of quality and workmanship. They are backed by prompt and efficient after-sales service.

Ceramic sanitaryware products come standard with a warranty of 10 years for residential use and 5 years for commercial use.

Water saving
Inspired by our
philosophy of saving
water through every product

Glazed trap
Better hygiene and
improved flushing

Swirl Flush

Seamless body

Thin Rim

Rimless
Easy to clean. Hygienic.

3D Flush
Cleans from three sides
with more pressure

Duroplast
seat cover
Strong Duroplast material
with an elegant finish

Durable

Nano Glaze
Technology
No stains, germs or
water droplets

4D Flush
Cleans from four sides
with more pressure

Slim soft close
seat cover

Design

Back to wall
Ultimate hygiene
guaranteed

Siphonic Jet
Flushing

Bidet soft close
seat cover

Snow White
Whiter than the whitest

Built in jet

Smart
Installation for
seamless body

Hidden installation

CERA Care
Happy to help our
customers anytime,
anywhere
